Dear Mr. Dan Nguyen,

I would like to first of all thank you for introducing me to the field of Neuro-Linguistic Programming and Hypnotherapy. With the populations' interest in alternative medicine increasing, I believe it is even more appropriate. As a practitioner of Acupuncture, the value of both therapies performed in conjunction will yield heightened therapeutic benefits. Especially in today's society with clients suffering more and more from stress-related disorders, the value of such therapy is highly anticipated. I would like to continue to working with you in promoting well-being and health. Thank you.

With kind regards,

Cheong H. Yang, L.Ac. NCCAOM
